Los Presidentes Espanoles Jose Luis Alvarez

In such a time as the present, when the citizens express a lack of confidence in the leadership of Spanish democracy and the candidates show the same, our society demands more and better political leadership. But how can we evaluate the successes and failures of the Spanish Presidents? What factors have influenced their mandate, their personality, opportunity and context? With a large dose of objectivity Jose Luis Alvarez explains the rise and fall of the governments of Adolfo Suarez, Leopoldo Calvo-Sotelo, Felipe Gonzalez, Jose Maria Anzar, Jose Luis Rodriguez Zapatero and Mariano Rajoy and other vital questions that today reveal their impact on the citizenry, for example, do they have a sense of urgency for their reforms? Are our politicians visionaries or managers? What is their style for decision making? What type of advisers do they surround themselves with? Do they want to and can they transform the country? The Spanish Presidents is required reading in which you will find all of the necessary tools to evaluate presidential leadership and politics in general."

About the Author

Jose Luis Alvarez is a professor in the Department of Corporate Policy at ESADE and a visiting professor at INSEAD. His teaching, research and consulting is focused on upper echelon executives who participate in strategic decisions with administrative advisory committees and executive committees. His most recent published book is *Sharing Executive Power*, which was chosen by the Academy of Management in 2007 as one of the best submissions for business management for the years of 2005 and 2006."
